

Embed Mentimeter in Blackboard

1 To find the embed code in Mentimeter, go to *Configure* in the top right menu.

2 In *Export & Share* you will find the embed code. Copy the code below *Embed*.

3 Go to the Blackboard course where you want to add the Mentimeter vote and select a content area. Select *Build Content* **1** and click *Item* **2**.

4 Click the *HTML* icon in the text editor.

5 Paste the embed code from Mentimeter, into the new window that pops up, by pressing the *Ctrl* + *V* buttons on your keyboard. Next, click *Update*.

6 The Mentimeter vote will only look like a yellow square now, however, as soon as you press *Submit* it will be shown in your *Item*.

The screenshots illustrate the following steps:

- In the Mentimeter interface, the **Configure** option in the top right menu is highlighted with a red dotted box.
- The **Export & Share** tab is selected, and the **Embed** section is shown. The embed code is highlighted with a red dotted box.
- In the Blackboard interface, the **Build Content** button is highlighted with a red circle labeled **1**, and the **Item** option in the dropdown menu is highlighted with a red circle labeled **2**.
- In the Blackboard text editor toolbar, the **HTML** icon is highlighted with a red dotted box.
- A browser window shows the embed code being pasted into the HTML code view.
- In the Blackboard text editor, the **Submit** button is highlighted with a red dotted box.
